Cellular De-Stressing Cream

Protects cells against daily stress
Protects skin from external agents

PRODUCT DESCRIPTION

Stress is a very common situation in today's society and the skin suffers as it is the foremost interface between the environment and the body. Cosmetic Solutions Cellular De-Stressing Cream reinforces the skin's natural defense mechanism, keeping the intricate balance that characterizes perfect and healthy skin, while reinforcing the skin's innate immunity, stimulating the first line of defense between the skin and the environment. Cellular De-Stressing Cream helps cells to fight stress and increase HSP70 levels preventing damage from further stress exposure.

KEY BENEFITS

- Protects cells against daily stress
- Reduces depth and size of wrinkles and fine lines
- Protects skin from external agents

DIRECTIONS

Use twice daily on clean dry skin. Apply generously on the face and neck using an upward motion.
